

April 26/2012

"I've been through doctor after doctor and procedure after procedure for several weeks now. After many failed attempts to make me well, I finally found Dr. Goodluck. He absolutely truly made an impact on my life, the quality of my life. He has been the only one that listened to me and genuinely shown true compassion and caring. He has done everything he could possible do to help me. Because we just moved here and have no family, having this type of caring doctor truly is a blessing. Dr. Goodluck truly listens. I would recommend him to anyone moving to the area looking for a doctor. He is a godsend.

Sincerely,

Rebecca Adams
